

THE JUNK
LIVEBOARDS

The Similan & Surin Islands, Thailand

Itinerary - 4 Nights

Arrival airport: Phuket International Airport (HKT)

Departure airport: Phuket International Airport (HKT)

Embarkation Point: Tap Lamu Pier, Khao Lak at 19:00 **or** Chalong Pier, Phuket at 19:00

Disembarkation Point: Tap Lamu Pier, Khao Lak at 14:00 **or** Chalong Pier, Phuket at 14:00

Kindly check your cruise confirmation for the correct (dis)embarkation point.

Shared transfers between Phuket Airport, Phuket hotels or Khao Lak hotels* and the vessel on embarkation and disembarkation day are included in the cruise price.

When you fly in on embarkation day, you can book our free shared transfer from Phuket Airport which departs once a day at a time to be advised at least 48 hours before departure. Please ensure that you arrive on time for this transfer.

*A transfer from Khao Lak to/from the vessel is available if respective embarking/disembarking is at Thap Lamu.

Phuket airport is about a 1 - 1½ hour drive from the embarkation/disembarkation point. Please allow at least 2 - 3 hours for international flight check-in and 1.5 - 2 hours for domestic flights.

Marine & Port Fees:

- 50 USD per person

Marine park fees can be paid advance, or onboard.

Minimum dive certification and experience:

Diving conditions in and around the Andaman Sea are generally suitable for all levels of divers. Divers wishing to join this itinerary are advised to have Advanced Open Water certification*, or equivalent, with a minimum of 10 logged dives and experience in currents.

*Advanced Open Water courses can be completed onboard.

It is a mandatory requirement for all divers to have insurance which covers scuba diving activities equivalent to your diving qualification , including emergency evacuation and recompression chamber costs.

Number of scheduled dives:

For this itinerary, your Cruise Director will schedule up to 14 dives. This itinerary involves some long-distance travel. Whilst we attempt to ensure the number of planned dives is fulfilled, bad weather and sea conditions can affect the boat's ability to reach a specific dive site in good time and may impact on the number of dives that are possible.

Safety and dive briefings are conducted in English. If you, or any of your group, do not speak or understand English, please contact us with sufficient notice.

The following is an example of the day-to-day schedule.

Day 1: Embarkation at 19.00hr followed by briefings and dinner.

Day 2-4: Your Cruise Director will schedule up to 4 dives per day; 3 dives and a sunset or night dive.

A typical diving day is scheduled as follows:

- Light breakfast, followed by briefing & Dive 1
- Full breakfast, relaxation, followed by briefing & Dive 2
- Lunch, relaxation, followed by briefing & Dive 3
- Snack
- Briefing for Dive 4
- Dinner

Day 5: After dive 2, the vessel commences her cruise to port. Disembarkation is scheduled for around 12h00 -14h00.

*We kindly request that guests check their flight departure times to ensure that they leave a minimum of 24 hours between their final dive and the departure of their flight. While we wish to show you the very best diving possible, the safety of all on board remains paramount. In the unlikely event we are unable to reach a specified dive site; we always do our best in offering diving at alternative locations.

The following is a description of the dive sites that we may visit during your liveaboard.

Similan Islands

The above water scenery will provide stunningly beautiful white sandy beaches with small forested areas. Dive some of the following sites; **Boulder City, Sharkfin Reef, Anita's Reef, and Three Trees.**

Under the surface, you may see Leopard (zebra) shark, blue spotted stingrays, clown triggerfish, rabbit fish, scorpion fish, snappers, emperor fish, giant trevally and angelfish. The coral gardens, bommies, and boulder formations are wonderful to dive.

Elephant Head Rock, visible from the surface, is the biggest pinnacle in the Similans and has some fantastic swim-throughs. Whitetip reef sharks, batfish, trevally and barracuda can often be seen on the perimeter of the boulders. If you look closely in the cracks and in the rubble you can see smashing mantis shrimp, porcelain crab, moray eels and cleaner shrimp.

There are also sites dominated by huge granite boulders such as **Deep Six, Christmas Point, and North Point** where you can see white tip reef sharks, schooling giant trevally, and schools of neon fusiliers.

Koh Bon

This is generally the most likely place to see manta rays on our Similans itinerary. You are also likely to see Napoleon wrasse, sweetlips, octopus, bluefin trevally, giant moray eels, great barracudas, fire dart goby, spiny lobster, and nudibranchs of many types. The dive sites vary from wall diving to gently sloping reefs and from submerged boulders to coral gardens.

Diving on the **West Ridge** can be an adrenaline-filled drift, with amazing views, while the **North Reef** is a gentler experience over a hard coral garden.

Koh Tachai

This island is famous for its pinnacle dive site, known by many as **Twin Peaks**, as well as more relaxed reef diving on the **North Reef** and **South Reef**. Normally, turtles, barracuda, pipefish, and nudibranchs can be found here. There is also a chance to see bigger species in this area like manta rays and whale sharks, especially from late January until April.

Surin Islands

The topside scenery of Koh Surin, with evergreen forests, mangroves, and small beaches, surpasses even that of the picturesque Similan Islands. Underwater the reefs of Surin offer some of the greatest hard coral diversity in Thailand.

Across sites like **Torinla Pinnacle**, **Hin Kong**, and **Turtle Ledges** you are likely to see Napoleon wrasse, yellow-masked angelfish, bumphead parrotfish, tomato anemonefish and barramundi, as well as lots of turtles that still come ashore in this area to lay their eggs.

Due to the remoteness, not many liveaboard boats visit these islands and you will be able to enjoy the dive sites without sharing them with tourist hordes.

Richelieu Rock

This limestone pinnacle was named after former Danish Naval Officer, Andreas Richelieu, who eventually became the only foreign born commander-in-chief of the Royal Thai Navy to date, appointed by King Chulalongkorn. One of Richelieu's tasks was to modernise the outdated Navy charts, and as he had become such an influential and important figure, this potentially hazardous-to-ships rock that poked out from sea at low tide, east of the Surin Islands, was eventually named after him.

Barely breaking the surface at low tide, this horseshoe-shaped outcropping slopes steeply to a sandy bottom at 18 to 35 meters (60-120 Ft). This site offers great diversity for such a small and isolated spot. It also offers excellent multi-level diving and, because it's a high-profile reef, there are always sheltered areas to hide from the current.

The marine life is prolific and includes amongst, many other things; pharaoh cuttlefish, large octopuses, all 5 varieties of anemone fish of the Andaman Sea, a variety of moray eels, ornate ghost pipefish, smashing mantis shrimps, harlequin shrimps, tigertail seahorses, Spanish mackerel, frogfish, many schooling snappers and occasional sightings of manta rays and whale sharks

Khao Lak Wrecks

Before disembarking in Khao Lak, if conditions and timing are favourable, there is a choice of easily diveable wrecks between the Similan Islands and the port of Tap Lamu. **The Boonsung** and **The Premchai** are old tin miners that were sunk in the 1990's and are a treat for underwater photographers as well as lovers of life of all kinds!

Only in 18m of water they are covered in nudibranchs and various kinds of shrimps. Many quite unusual honeycomb morays also made these wrecks home. There are also huge numbers of schooling fish as well as rays and sharks that can occasionally be seen.

Top Side

Along the route there are some incredible views from the boat including verdant forests, deserted beaches, and limestone karsts climbing up vertically from the ocean. There will be several opportunities to leave the boat and take a walk on the islands.

A walk up the trail to Sail Rock is definitely time well spent! You can even be entertained by marine life while relaxing on board, as dolphins cruising along with the boat are not an unusual sight.

Should you have any questions or queries concerning the dive sites or whether this itinerary is suitable for your experience level, please contact our reservations team via info@thejunk.com who will be pleased to assist and advise you.
